

[Research in Diagnostic and Interventional Imaging](#)

(ReDII) focuses only on original research in medical imaging – whatever the subspecialty, with an emphasis on methodology and scientific merit rather than perceived novelty/trendiness.

We fully embrace the open-access model, with rapid turnaround times and simplified instructions-to-authors – **so simple they fit in a single table!**

Submit your manuscript, formatted **your way**, as an original full-length article or a more streamlined research letter.
